

Custom Design Showcase

**A Selection of Pipeline Packaging's
Collaborative Custom Design Projects**

An Employee Owned Company

Why “Pipeline” Packaging

A “pipeline” is a channel that moves resources and information from impractical locations to places where they can readily be used.

Through services, products, expert advisory and innovation, Pipeline Packaging will be that channel towards your company’s success.

SERVING THE U.S. SINCE 1988

Corporate Headquarters - Hudson, OH

An Employee Owned Company

Good People at the Core of Packaging

Since 1988, we understand that people make products, services, companies and brands successful. Let our proactive approach, timely communication and genuine concern for your success be a part of a winning strategy for you and your company.

You have a lot to manage in your pipeline.

Let our ***Good People at the Core*** be the pipeline to your success!

CUSTOM DESIGN WITH PIPELINE PACKAGING

A container's design determines its competitive brand placement, ergonomics and overall customer experience. When stock containers fail to deliver competitive advantage, you may consider custom packaging. But, where to start?

Pipeline Packaging can work with you from design through delivery. Our in-house design and engineering team's experience provides a turnkey method to bring your concept to reality:

- Establish stakeholder and project parameters
- Timeline/Project management
- Container conceptualization
- Rapid prototyping with 3D modeling
- Sourcing manufacturers
- Custom mold development
- Production, warehousing and logistics

An Employee Owned Company

CYLINDERS AND ROUNDS

Cylinders and Rounds are the most widely used bottle designs. Let Pipeline Packaging customize your package with the diameter and height that achieves your desired presence on the shelf. And, through colors or custom neck finishes, we can accommodate all of your design needs.

NECK FINISHES

From 18mm to 120mm, let us design your container for the optimum neck opening for product pourability. Neck configurations to consider include ratchets, CRC and tamper evident.

COLOR

Incorporate brand colors into the bottle itself to increase your product's visibility and recognition in the market.

BRAND ELEMENTS

Incorporate your logo or other visual brand element directly into the bottle sidewalls. Elements such as these can be built directly into the mold or as insertable/removable pieces, ideal if needed for other SKUs.

DESIGN FLEXIBILITY

The diameter and height of Cylinders and Rounds can easily be changed to achieve a different look. Whether it's short and squat or tall and thin, simple alterations can achieve better presence on the shelf.

Cylinders and Rounds

Mold#	PP-1260
Style	Aerosol Cylinder
Capacity	22 oz
Neck Finish	28/410
Material	HDPE
Dimension	9.390 x 2.708

Mold#	PP-0571
Style	Bike Bottle
Capacity	23 oz
Neck Finish	43mm
Material	HDPE
Dimension	8.146 x 2.956

Mold#	PP-1050
Style	Sport Bubble Bottle
Capacity	22 oz
Neck Finish	63/400 & 70/400
Material	HDPE
Dimension	7.857 x 2.860

Cylinders and Rounds

Mold#	PP-0910
Style	Boston Round
Capacity	4 oz
Neck Finish	24/410
Material	HDPE
Dimension	4.411 x 1.880

Mold#	PP-0915

Material	HDPE
Dimension	9.028 x 7.638

Mold#	PP-0175
Style	Vial - Ringed
Capacity	2 oz
Neck Finish	33/400
Material	PVC
Dimension	2.657 x 1.434

GLASSWARE

Glassware presents a more refined, elegant product - especially in the food and cosmetic markets. In the past, large volumes had been required for a custom glass container; Pipeline's relationships can now help reduce that volume to as little 200,000 annual units.

DESIGN FLEXIBILITY

Glass can easily be molded in squares, rounds, hexagons... whatever design the product requires.

COLOR

Most glass is produced in clear or amber. Consider custom colors - cobalt blue, Nile green, translucent pink, and more - to fulfill your design goals.

NECK FINISH

Glass bottles and jars can be molded with a multitude of neck finishes such as lug, continuous thread of deep skirt.

BRAND ELEMENTS

An embossed or debossed logo adds a touch of elegance to the overall package design in addition to providing stronger shelf recognition.

Glassware

Mold#	PP-1175
Style	Square Wide Mouth Jar
Capacity	18 oz
Neck Finish	70mm
Material	FLINT
Dimension	5.000 x 2.991

Mold#	PP-1176
Style	Square Wide Mouth Jar
Capacity	28 oz
Neck Finish	70mm
Material	FLINT
Dimension	6.000 x 4.031

Mold#	PP-0005
Style	Vinegar Bottle
Capacity	12 oz
Neck Finish	28/480
Material	FLINT
Dimension	7.906 x 3.203

HANDLEWARE

Increase your product's ease of use by incorporating a handle into the packaging. Handleware, however, requires a balance between ergonomics and economizing shelf/storage space. Pipeline can help with the right combination in all sizes, from 4 ounces to 5 gallons.

HANDLE

Options include finger grip, slant handles or pinched handles to properly cover your ergonomic needs.

SHAPE

Custom Handleware isn't just for round bottles anymore. Consider custom oblongs and squares to maximize storage space.

STRENGTHENING RIBS

Assure the optimum container strength for your product by incorporating extra ribbing or body steps.

BRAND ELEMENTS

Through custom color or embossed/debossed logos, make your container stand out in the market.

Handleware

Mold#	PP-0563
Style	Handled Cylinder
Capacity	24 oz
Neck Finish	70/400
Material	HDPE

Style	Oblong Custom
Capacity	72 oz
Neck Finish	38mm
Material	HDPE
Dimension	10.844 x 6.130 x 3.919

INJECTION MOLDING

Injection molded parts - whether HDPE, polypro, PVC or PET - are typically custom designed. Pipeline's experience has provided our customers with award winning, patented designs which gave their product that winning edge to success.

MATERIALS

Our engineers and designers can help provide material options for your product that are cost efficient and work best for all design criteria.

COLOR

Injection molding opens the possibility to use any color in the spectrum for a unique package offering.

INTRICATE SHAPE

While all custom design can alter the shape, injection molding allows for more intricate details such as tight corners or radii.

Injection Molding

Mold#	PP-0615
Style	Snip Tip Closure
Neck Finish	24mm
Material	HDPE
Dimension	1.437 x 1.107

Mold#	PP-0620

Mold#	PP-0675
Style	2-Piece Spool
Neck Finish	28mm
Material	PP
Dimension	1.456 x 0.637

OBLONGS AND SQUARES

Oblongs and Squares are quickly gaining in popularity. Their design reduces wasted pallet/shelf space while maximizing content capacity. Reducing air space directly translates into reducing freight costs - a concern for any manufacturer.

SHAPE

Oblongs and Squares can provide a unique appearance - either squat and durable or long and sleek - that will help your package stand out.

NECK FINISHES

Most neck finishes can be accommodated: snap on, continuous thread, lug, ratchet or tamper evident.

BRAND ELEMENTS

Incorporate your logo or other visual brand element directly into the bottle sidewalls. Elements such as these can be built directly into the mold or as insertable/removable pieces, ideal if needed for other SKUs.

Oblongs and Squares

Mold#	PP-0780
Style	Oblong Alcohol Bottle
Capacity	16 oz
Neck Finish	28/400
Material	HDPE
Dimension	7.450 x 3.217 x 1.975

Mold#	PP-1350
Style	Center Spout Oblong
Capacity	16 oz
Neck Finish	28/400
Material	HDPE
Dimension	6.737 x 3.236 x 2.060

Mold#	PP-0033
Style	Oblong Shelf Bottle
Capacity	16 oz
Neck Finish	28/400
Material	HDPE
Dimension	7.100 x 3.025 x 2.295

Oblongs and Squares

Mold#	PP-o800
Style	Rectangular Oblong
Capacity	32 oz
Neck Finish	28/410
Material	HDPE
Dimension	7.915 x 4.727 x 2.814

Mold#	PP-0183

Mold#	PP-0008
Style	Rectangular Space Saver
Capacity	28 oz
Neck Finish	53/400
Material	HDPE
Dimension	6.239 x 4.144 x 2.840

Mold#	PP-1270
Style	Square
Capacity	2.5gal
Neck Finish	63mm
Material	HDPE
Dimension	13.565 x 8.629 x 6.460

proprietary

Oblongs and Squares

Mold#	PP-1395
Style	Disposal Tank
Capacity	350 ml
Neck Finish	None
Material	HDPE
Dimension	7.028 x 2.953 x 1.693

Mold#	PP-1560
Style	Oblong Tank
Capacity	1.5 Liter
Neck Finish	38/SP400
Material	HDPE
Dimension	8.250 x 4.500 x 3.086

OVALS

Ergonomics and ease of use are prime drivers for Oval bottle designs. Hence, this shape is commonly encountered in the personal care, foods and household chemicals markets.

SHOULDER AND STABILITY DESIGNS

An Oval design can easily accommodate a variety of curved or squared shoulders based on market or usage. Additionally, consider adding ribbed sides to strengthen the overall design.

NECK FINISHES

Most neck finishes can be accommodated: snap on, continuous thread, lug, ratchet or tamper evident.

BRAND ELEMENTS

More easily achieve a brand prominence with the Oval's teardrop design. The wider front and back panels allow for greater brand messaging, instructions for use or regulatory text.

Ovals

Mold#	PP-0235
Style	Custom Oval
Capacity	6 oz
Neck Finish	24/410
Material	HDPE
Dimension	5.150 X 2.750 X 1.420

Style	Wide Body Sprayer
Capacity	32 oz
Neck Finish	28/400
Material	HDPE
Dimension	8.879 x 4.440 x 2.695

PET

The unique properties of PET allow for sturdy designs and more product compatibility options than HDPE or PVC. It's superior capability as an oxygen barrier - increasing taste retention extending shelf life - make it the right fit for many food and chemical products.

COLOR

PET has more flexibility with color than other resins. In addition to standard and custom "solid" colors, PET can also accommodate translucent shades to view the contents or the inside back wall to be seen.

SHAPE

PET can readily be shaped into familiar packaging styles - Rounds, Ovals, Oblongs, Squares - as well as unique shapes to meet your product and brand's needs.

BRAND ELEMENTS

Emboss your logos into the sidewalls or custom design your signature shape. Consider grips or other textured elements to associate your brand with ease of use or "fun and quirky" tactile experience.

PET

Mold#	PP-1470
Style	BBQ Sauce Round
Capacity	28 oz

Products

We have access to thousands of products to meet your safety, brand and budgetary needs. Steel, plastic, glass, fiber, tinplate and aluminum are only the first of many options. Sizes, shapes and colors can easily be accommodated. Let Pipeline's specialists help you find the right packaging for your product.

Bottles, Cubitainers and Jars

Available in a variety of plastics, glass and colors. Sizes range from 1-ounce to 5-gallon bottles and jars. Custom packaging molds can easily be accommodated with minimum orders.

Cans

Tinplate, steel and aluminum cans are available in round, paint-style, f-style, monotop/utility and aerosol. UN-regulated and non-regulated. Our metal or child-resistant closures and various liner options complete your package.

Pails and Tubs

Available in open head and tight head, UN-regulated and non-regulated, all sizes and a variety of colors available as well as decorating options. Steel pails feature a full range of interior linings and exterior coatings. Plastic pail covers include tear skirt, non-tear skirt, UN Standard with and without Rieke™ flex spouts.

Closing Tools

8-1/2", 11-1/4" and 14" closing tools are available in manual and air operated styles. Closing tool repair and loan services are also offered by Pipeline Packaging.

Closures

Closures, pumps and sprayers for all containers are available in a vast assortment of sizes and styles. Choose from metal or plastic screw caps, child-resistant, sealed-for-your-protection and interior tamper proof seals.

Drums and Totes

Fiber, plastic and steel drums as well as industrial tote containers are available in a wide variety of sizes and colors. Ask about corresponding drum lids and tote valves. UN-rated, linings and stackable are just a few options to choose from.

Liners

HDPE and LDPE liners from 1 to 55 gallons are offered in 4-15 milliliter thicknesses. Choice of options such as pleated and anti-static.

Tubes

Aluminum, laminate and plastic tubes in a wide range of sizes. Mono- and multi-layer with solvent resistant barriers available. Minimum quantities may apply.

We Are...

Our people, the foundation of our business, take a genuine interest in serving our customers and meeting their unique packaging needs. We are resourceful, customer-centric and competitive from strategy through fulfillment. As a partner to our customers, we provide knowledge, communication, efficiency and depth of resources that are critical to their business operations.

Together we share a common goal — to create solutions that drive customer success.

“ Pipeline has offered us excellent service and fair pricing. Their staff is both friendly and knowledgeable, which makes our business a pleasure. ”
