

CRADLE FOR STEEL PAILS

PRODUCT DESCRIPTION: The 5HD/CRDL/STD is a rigid, durable, straight-sided, seamless, vacuum-formed cradle for keeping a can, up to 1-gallon in size, separated from the other contents of a 5-gallon steel pail. This robust insert is molded from FDA-approved high-density polyethylene, thus it provides good resistance to many solvents. A contoured lip snaps over the top bead to prevent leakage between the insert and the pail wall.
