

PRODUCT DESCRIPTION: The 5HD/CRDL/ONE-GAL is a rigid, durable, straight-sided, seamless, vacuum-formed cradle for keeping a can, up to 1-gallon in size, separated from the other contents of a 5-gallon plastic pail. This robust insert is molded from FDA-approved high-density polyethylene, thus it provides good resistance to many solvents. A contoured lip snaps over the top bead to prevent leakage between the insert and the pail wall. The ST is a short trim lip of 5/8".

TYPICAL APPLICATIONS: The 5HD/CRDL/ONE-GAL/ST keeps two-part packages separated (where one component is in its own container) until combined by the user. Such packages include epoxy/hardeners, epoxy paints, etc. The 5HD/CRDL/ONE-GAL/ST allows the two parts to be contained and shipped in a single package.
