

# Maverick

composite hazmat containers

The Pipeline Maverick, purpose-built packaging for PGII & PGIII solids, is at the forefront of Pipeline's next generation of hazmat style boxes. Our engineering process combines critical features which optimize stackability and eliminate bulge, while maintaining the lightweight, collapsible attributes which are the hallmarks of Pipeline products.

## FEATURES & BENEFITS

- The continuous fiberboard sleeve is bonded to woven coated polypropylene guaranteeing protection from the elements and increasing overall container strength by as much as 1.25X compared to pocket design containers
- Scored sides allow the container to knock down and lay flat when not in use, reducing freight and warehouse cost up to 30% vs. corrugated boxes
- Optional lab pack exempt
- Pre-installed liner ensures a proper fit, reduces undue stress on the liner, and eliminates missing components
- High strength integrated lift straps
- Pre-attached cover features a 6" overlap to ensure maximum coverage

## PRODUCT SPECIFICATIONS

Packaging Identification Code	13H4
Max Gross	2,500 lbs
Volume/Dimensions	Volume 27 ft – Width 36" (914.4 mm) – Length 36" (914.4 mm) – Height 36" (914.4 mm)
Closure/Top Description	Open Top Duffled Liner w/Pre-attached Single Piece Cover
Exterior	UV Treated High Density Woven Polypropylene
Structure	Multi-Layer Fiberboard
Liner	Low Density Polyethylene
Pallet Quantity	25 units
Tare Weight	20 lbs
